### Explore the Grenadines with 'Beauty'

Sail a classic island sloop and discover the beauty of the islands, bays and reefs. A popular destination is the Tobago Cays a group of five small uninhabited islands surrounded by an extensive horseshoe reef. Without question it is a jewel of the Caribbean, a nature lovers and snorkeler's paradise, you can swim with myriads of colourful fish and abundant Green Sea Turtles in crystal clear protected water and soak up the natural beauty of this rare paradise.

#### Sailing Sloop 'Beauty'

Beauty is described as a traditional Windward Islands sloop, she was recently built by the master shipwrights of Petit Martinique just a cannon shot from Petit St. Vincent. At 49 ft. long, she is perfectly proportioned for sailing in comfort and style giving an authentic experience of sailing a local vessel.

The skipper Jeff will be known to guests that have visited before. Beauty is his newest creation and his joy is to share all that is beauty here. Beauty sails on private or shared charters with up to six guests and can sail to and from neighbouring islands to pick up or drop off.

Lunches are a special feature as locally caught fish and lobster are cooked Buccaneer style on a barbecue and the rum can flow like true "Pirates of the Caribbean"

Guests are encouraged to take the helm and pull the ropes if they wish but not to mutiny, but why would they?

Beauty awaits the eyes of her beholders...we look forward to seeing you too! For more information, please feel free to have a chat with our team at the Front Office.
